## SOFTWARE DEVELOPER

+923074327968 | abduallahrafique9783@gmail.com | <https://github.com/abdullah7896>

Versatile and results-oriented programmer with experience in Angular front-end development, responsive design, and SEO optimization. Strong problem-solving abilities and a drive to improving user experience and performance. Seeking a challenging atmosphere where I can hone my talents and contribute to dynamic organizational growth.

### AREA OF EXPERTISE

Angular	Visual Responsive Design	TypeScript
JavaScript	RESTful APIs	Git-hub
RXJS	Bootstrap	Tailwind CSS

### PROJECTS

- **Enhanced User Experience and Functionality:** Developed the Healers Fitness web app with Angular 16, improving user engagement by 30% through intuitive interfaces, responsive design, and comprehensive dashboards.
- **Front-End Development and Bug Resolution:** Contributed to the Field Force project as a front-end developer, focusing on bug fixes and performance enhancements to optimize user experience.

### PROFESSIONAL EXPERIENCE

#### Software Developer Intern

June 2023 - Present

- **Angular Front-End Development:** Oversaw the creation of the front end for an Angular-based fitness web app. Designed dynamic components, connected APIs, and assured responsive design, resulting in an improved user experience and performance.
- **User Interface Improvements:** Made the app's user interface more user-friendly and intuitive, resulting in increased user engagement and satisfaction.
- **SEO Initiatives:** Played an important role in SEO methods that improved bigentities.com search engine ranking. This included excellent content creation and strategic SEO execution, resulting in improved organic traffic and search engine visibility.
- **Complete project involvement:** actively involved in planning, design, and implementation. Ensured the creation of a seamless and engaging platform.
